

Let's Play The Robot Dating Game

By Anthony Elio

ROMANCE WITH ROBOTS!

Okay, let's talk about sex robots. Pleasure-giving machines are an increasingly hot topic. In fact, a recent survey in the U.S. revealed that two-thirds of men and one-third of women would be open to making robotic love, and *New York Times*-reviewed author David Levy predicts robot marriage will be accepted by the year 2050 for those of you who still think it's too taboo to be seen kissing your Roomba in public. So, in the spirit of embracing the uncanny robot uprising, let's meet some of the mechanical maidens you hopefully, for the sake of all that's pure in the world, won't bring home to meet your parents someday.

Harmony

Meet Harmony, the busty silicone-based sex robot that's brimming with unnatural sensuality and personality. When asked how she feels about the topic of intercourse, she responds with "Sex is one of the most fascinating things in the world. I don't think that there's anything wrong with it." Spoken like a true temptress. However, you're going to have to wait until the end of the year to get your very own version of Harmony, just in time for your holiday wishlist. And, not to be forgotten, Harmony also comes special with 42 different nipple types! I doubt your Stretch Armstrong had that much customization.

[Editor's Note: This is real. Price: \$5,000-\$10,000]. ★★★★★☆

Silicon Samantha

With a brutally honest name telling you what her heart's made of, Silicon Samantha is much more than just a lifeless robot that you can defile the notion of love with. She's also a personal companion. You see, unlike some of the other options on this list, you don't have to be afraid to bring Samantha to your family's Thanksgiving dinner, as she can easily switch between "sexy" and "family" mode. Surely nothing could possibly go wrong there.

[Editor's Note: This is real. Prices vary]. ★★★★★☆

Roxxy and Rocky

Unlike other sex robot creators, True Companion gives you the option of choosing between Roxxy and her biological brother (I guess) Rocky. Roxxy, whose website claims is "The World's First Sex Robot," can be programmed with such pre-determined personalities as Wild Wendy, S&M Susan, and Please Go Out In The Real World And Meet Someone Pauline. Rocky features a slightly different style of customization, with the ability to add different colors of razor stubble (cost: \$100), different colors of hair down there (cost: \$100), and can be ordered directly to your door (cost: your self worth).

[Editor's Note: This is real. \$9,995, not including "add-ons"]. ★★★★★☆

PassionDolly

Featuring a name clearly analyzed for hours by a boardroom, PassionDolly has been called "Ireland's most realistic sex doll." (Who else would love to see the panel of judges for that?) With your standard 32E bust, a fully metal skeleton, and cold, lifeless eyes staring back at you, PassionDolly finally gives you a reason to book that European trip.

[Editor's Note: This is real and purely a rental, costing about \$95/hour or \$47/half hour. We're sorry. We're so, so sorry.] ★☆☆☆☆
